Commercialite® Plastic Folding Tables

This industrial strength blow molded plastic folding table is one of the strongest, lightest, most affordable indoor / outdoor folding tables on the market!

- Easy to clean polyethylene plastic top is stain, heat, and impact resistant as well as UV inhibited for outdoor use
- One piece blow molded tops are hermetically sealed against biological contamination and meet BIFMA standards
- Heavy duty leg assembly supports over 3500 pounds and is bolted through the table top to provide the strength needed for the rough handling of industrial use
- Accepts 3/4" skirting clips

Commercialite Folding Table Specifications

Main Frame and Leg Assembly

Main frame constructed of U.S. steel rails and folding legs: rails are roll formed of 14 gauge steel, legs of 16 gauge 1" steel tubing and braces of 11 gauge stamped steel with 16 gauge gravity lock. Legs are permanently swaged into rails then attached to table top with bolt-through assembly. Standard table height is 30". Industry proven wishbone style legs on all but 4' and 5' rectangle tables which feature an "H" style leg. Adjustable height and child height (23") legs available on certain tops.

Pre-Paint Treatment and Powder Coating

Frame and tubing is industrial cleaned for rust resistance and superior paint adhesion. Baked on polyester powder coating has outstanding toughness, excellent weathering properties and a smooth appearance.

Table Top

Blow molded table top of polyethylene plastic with color blended throughout. Formulated for outdoor exposure with minimal fade or thermal stress cracking (indoor storage recommended). Average thickness of material engineered to be .140". Excellent stacking performance, 15 high maximum is recommended. Edge of table is 7/8" thick to accept standard skirting clips. Round tables are made with two half circle pieces electronically bonded together. Top is attached to main frame with bolts and nylon nuts to provide extreme durability and ensure there is no separation during rough handling.

Feet & Rivets

Glides are insert style flush mount standard. Nylon pad on glide for non-marring of floor surfaces. Rivets are 1/4", zinc plated to resist rust and powder coated for complete rust protection.

Color

All Commercialite® tables have Gray tops and Black powder coat frame and legs.

Guarantee

Commercialite® has a full 10 year limited warranty under normal use. McCourt Manufacturing will repair or replace (at our option) at no charge; customer assumes all freight charges.
