# MTS Burgess® Como Banquet Series

## Comfort comes standard

Como premium comfort stackers come standard with the MTS COMFORTweb® Seating System and contoured back with lower lumbar support system, for premium seating comfort. And though they may be light on weight, these stackers are heavy on details, making the Como the perfectly discreet combination of elegance, luxury and durability. Available in arm chair models and can be upholstered in an endless array of fabrics.

### 1. MTS COMFORTweb® Seating System

Standard on all Como models, a luxurious layer of specially formulated COMFORTmode® foam is supported by flexible, rubberized polypropylene stretchband material for responsive, reliable comfort.

### 2. Contoured Back with Lower Lumbar Support System

Adding to Como's incredible comfort, is the lower lumbar support system of rubberized polypropylene material integrated into the specially designed curved back – both standard on all Como models – offering superior support especially during extended seating periods.

### 3. Light-weight, High-strength Aluminum Alloy Frame

All MTS Burgess Collection chair frames are made from a special aluminum alloy that not only allows for easy movement of the chair, but provides unprecedented strength. Frames come in a number of wood-like and metallic finishes, from mahogany to brass. They provide the luxurious look of wood with the durability and strength of light-weight aluminum.

### 4. Choice of Reeded or Smooth Profile

Choose a unique reeded detailing for an added touch of elegance (models 27/x), or a smooth profile for subtle sophistication (models 28/x).

Reeded Profile, 27 Series

Smooth Profile, 28 Series

### 5. 12-year Structural Frame Warranty

One of the strongest and most durable chairs on the market, MTS Burgess outperforms other models on durability testing.

## Step up to COMFORTflex®, and sit down in the ultimate comfort

For an even more flexible approach to comfort, Como stackers can be ordered as a CF model, with all the great features of a standard premium comfort PC model Como, outlined above, plus the extra comfort and added sophistication of the COMFORTflex® seat and back system.

In addition to the great standard Como features, CF models include:

### 1. Hinged Flex-motion

The MTS COMFORTflex® seat and back system incorporates an all-new hinged flex-motion seat and back frame that allows the seat to flex with the back for extraordinary comfort, especially during extended periods of sitting. The patented MTS COMFORTflex® frame has been tested to 1,120,000+ cycles – 1 million cycles over the BIFMA standard of 120,000 – and features a 12-year structural warranty.

### 2. Unique Contoured Seat Design

CF model Como Stackers with COMFORTflex® feature a specially designed contoured seat that, when paired with the lower lumbar flexible support system that comes standard on all Como models, adds to Como's already-sophisticated profile and luxurious comfort.

### 3. Thicker Foam

An extra thick COMFORTmode® foam pad is utilized on all CF models for a whole new level of luxury.

### 4. Premium Metal Based Glides

Premium metal glides are standard on all COMFORTflex® Como models. These premium glides feature a rubber cushion silencer to reduce noise on hard surface floors and allow chairs to slide easily on carpet. A booted design protects upholstery and finish when stacking.

Seating System

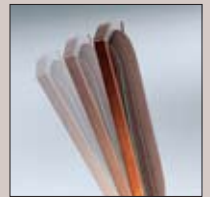

# Como Banquet Series

## Taking elegance to heart.

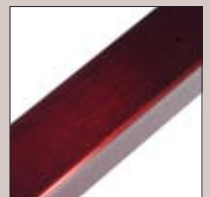

Our Como banquet chair is a study in sophistication and stamina. The lightweight aluminum frame assures easy handling and unparalleled strength. The Como comes standard with a specially designed contoured back and lower lumbar comfort system, for premium comfort. Plus, it's available in a number of wood-like and brushed metallic finishes, ranging from mahogany to brass.

Many Como models feature our unique and distinctive corner detail. Available in a variety of finishes as shown on page 6. This corner detail is a MTS Burgess® trademark.

# Como Banquet Series

## An obsession with detail.

The perfect addition to the most handsome banquet table, the MTS Burgess® Como is available with either an elegant reeded profile for a subtle touch of elegance, or with a sleek smooth profile for added sophistication. Available in both arm chair and side chair models, it can be upholstered in an infinite choice of fabrics. The Como stacks 10-high and features our exclusive COMFORTweb® seating system for unbeatable comfort. Backed by our 12-year warranty, it's an ideal marriage of design and durability.

# Sit Green.

It's not just a seat. It's a style.

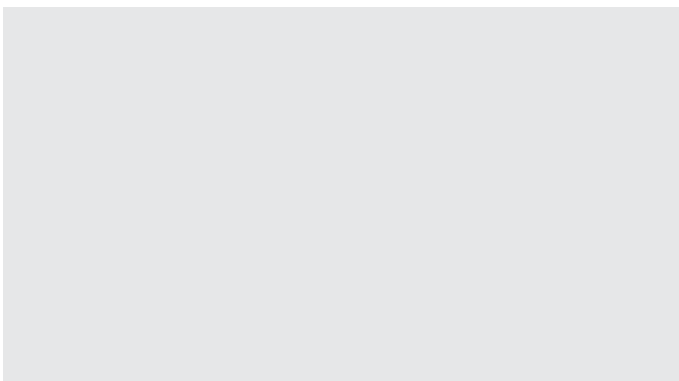

To combat the impact that manufacturing processes can have on our environment, MTS developed SynerGreen™. This eco-friendly philosophy was designed to make continuous environmental improvements in our processes and products without compromising sound business principles. Through aggressive recycling programs, reduced emissions, and energy conservation efforts, we're creating seating solutions that allow us all to rest a little easier.

Visit our website at [mtsseating.com](http://mtsseating.com) to find out more about our SynerGreen program and for the big picture in turnkey solutions for every seating setting. Discover performance engineering, ergonomics today's hospitality industry demands, and the design impact to make a lasting statement – whimsical to romantic, retro to regal.

To see the entire line of MTS Stackable Seating visit [www.mtsseating.com](http://www.mtsseating.com).
