WALL POCKET TABLES

**15 Year
 Limited
 Warranty**

The several types of Wall Pocket Systems are ideal to quickly and safely free up cafeteria spaces for other activities. When tables and benches are stored, a multi-purpose room is available. When needed, tables and benches can be unlocked and separated from the wall pocket for other uses.

The single depth Wall Pocket System consists of a wall pocket holding one table and two benches. The wall pockets are designed for RECESSED installation inside opening in the wall or AGAINST WALL. Wall pockets come in various depths, with a storage capacity of one or two sets of tables and benches.

As part of our offering, we can assist with a site survey, cafeteria layout options and competitive costs on delivery, installation and routine maintenance services.

Standard Features

- Lift Assist System utilizes compression springs for smooth, controlled and easy operations
- Multiple locking systems include primary and intermediate Track-Locks, Pocket Z-Lock automatically captures and align table and bench, keyed Mullion Lock secures table and benches in the stored position and adjustable Down Latch secures table and benches in the down position
- Superior quality include Wilsonart (-60) high pressure plastic laminate table and bench surfaces, EdgeGuard polyurea edge treatment, Poly II caster wheels and powdercoat metal finish
